How can I change the MT4 Server on my mobile?

Trading Platform · https://maintest.windsorbrokers.com/knowledge-base/trading-platform/how-can-i-change-the-mt4-server-on-my-mobile/

To change MT4 Server for Android Mobile, follow the steps below:

1- Click on 'Manage Accounts'

2- Press the '+' tab at the top

3- Click on 'Login to an existing Account'

4- Type your server. You can find your server on your WB Portal or App under Account Details.

In case the Server does not appear, follow the steps below:

1- Launch the mobile terminal

2- Open the app's main menu and click on the 'About' tab

3- Press and hold on the MetaTrader logo until your mobile vibrates

4- The list of Servers will be updated in few seconds

5- Log into your account

To change MT4 Server for (IPHONE) Mobile, follow the steps below:

1- Click on 'New Account' - Click on 'Login to an existing Account'

2- Type your server. You can find your server on your WB Portal or App under Account Details.

In case the Server does not appear, follow the steps below:

1- Launch the mobile terminal

2- Click on 'Settings' and then the 'About' tab

3- Press and hold on the MetaTrader logo until your mobile vibrates

4- The list of Servers will be updated in few seconds (this can be verified through the 'Journal')

5-Log into your account
