How can I change the MT5 Server on my mobile?

Trading Platform · https://www.newwbtesting.kinsta.cloud/knowledge-base/trading-platform/how-can-i-change-the-mt5-server-on-my-mobile/

To change MT5 Server for Android Mobile, follow the steps below:

1- Click on 'Manage Accounts'

2- Press the '+' tab at the top

3- Search for Windsor Brokers and enter your account ID and password.

4- Type your Server. You can find your server on your WB Portal or App under Account Details.

In case the Server does not appear, follow the steps below:

1- Launch the mobile terminal

2- Open the app's main menu and click on the 'About' tab

3- Press and hold on the MetaTrader logo until your mobile vibrates

4- The list of Servers will be updated in few seconds

5- Log into your account

To change MT5 Server for (IPHONE) Mobile, follow the steps below:

1- Tap on 'New Account'. Search for Windsor Brokers and enter your account ID and password. Then select the appropriate server under the “Use Existing Account” section.

2- Type your Server. You can find your server on your WB Portal or App under Account Details.

In case the Server does not appear, follow the steps below:

1- Launch the mobile terminal

2- Click on 'Settings' and then the 'About' tab

3- Press and hold on the MetaTrader logo until your mobile vibrates

4- The list of Servers will be updated in few seconds (this can be verified through the 'Journal')

5-Log into your account
