How can I create an ‘Investor Password’ on the MT5?

Trading Platform · https://maintest.windsorbrokers.com/knowledge-base/trading-platform/how-can-i-create-an-investor-password-on-the-mt5/

Creating an investor password on the MetaTrader 5 (MT5) platform allows you to provide read-only access to your trading account. This is useful for sharing your account details with others without giving them the ability to make trades. Here are the detailed steps to create an investor password:

• Log into the MT5 platform,
• Click on ‘Tools’,
• Click on ‘Options’,
• Select ‘Server’, You can find your server on your WB Portal or App under Account Details.
• Click on ‘Change’,
• In the Current password field, type your Master password,
• Tick the ‘change investor (read-only) password option
• Type your new password
• Re-enter the NEW password in the ‘Confirm’ field,
• Click on ‘Ok’,
