Is Metatrader 5 available on mobile devices?

Trading Platform · https://maintest.windsorbrokers.com/knowledge-base/trading-platform/is-metatrader-5-available-on-mobile-devices/

The MT5 mobile app is available for both Android and iOS devices and allows you to access your trading accounts from any location, at any time.

The MT5 mobile app provides advanced charting, multiple order types, and real-time quotes and news. With the MT5 app you can also oversee your trades, implement stop-loss and take-profit orders, and track your portfolio's performance. Additionally, the app grants access to the MT5 marketplace, offering a selection of custom indicators and Expert Advisors (EAs) for trade automation.

You can download the MT5 mobile application on the AppStore or GooglePlay directly or on the Windsor Brokers MT5 platforms page.
