How are Providers compensated for their strategies?

WB Copy Trading · https://maintest.windsorbrokers.com/knowledge-base/wb-copy-trading/how-are-providers-compensated-for-their-strategies/

Providers earn a profit-sharing fee, known as the Performance Fee. This fee is determined by the Providers and paid by the Followers only when the subscription yields a profitable trading result. The performance fee is calculated and paid out to providers on a weekly basis. Specifically, the payout will occur every Saturday at 00:00. (Note: if a Follower decides to withdraw funds or unsubscribe before the payout day, the fees will be calculated up to that point and the payout will occur instantly.)
